Housing: Current Status

The Housing Authority of Maysville operates 264 units of Low Income Public Housing units in 11 locations, mostly on the East end of Maysville. Inspected to Uniform Product Control Standards by an independent inspection agency these units received a grade of 97% during the last inspection. This indicates that they are well maintained and regularly modernized. The average occupancy rate varies between 90% and 95%. The average yearly gross income for a public housing resident is \$9,398.88 which produces an average family rent of \$179.90 per month. There are 177 female heads of household and 64 males heading households. There are 211 minors on the properties. The satisfaction rating as determined by contracted survey from the government is 9.2 out of a possible 10 points.

A Section 8 rental assistance program operates up to 108 units within the community. These units are inspected to a significantly lower standard and house those individuals meeting the regional Very Low Income Standard. Rent for these units is subsidized and there is a moderate utility allowance. The average yearly gross income for a voucher assistance recipient is \$7,356 which produces an average participant payment to a landlord of \$117.36 per month. The average Housing Assistance Payment to a landlord is \$225.34 per month. There are 64 female heads of household and 10 male household heads in December 2005 with 61 minors in the units.

The Housing Authority of Maysville operates several programs for the benefit of all residents.

- ★ Assistance with activities of daily living for any willing elderly or disabled participant.
- ★ Masters of Computer Basics program teaching keyboarding, Microsoft products, Internet, email and Quickbooks accounting (18 stations at Amo Peters Community Center).
- ★ Summer Lunch Program starting on the day after the last day of school in the spring and finishing on the day before the first day of school in the fall.
- ★ Network Neighborhood Distance Learning Center with access to the Kentucky Virtual University, Virtual Library, PLATO learning platform, and other learning opportunities (19 stations at the Amo Peters Community Center).
- ★ Permanent Housing Program which moves referred and qualified individuals from homelessness to housing (including interaction with a case worker/property manager for one year).
- ★ Camp Discovery at the Dora H. Merz Playground that involves up to 125 youth in a daycamp summer program each year.
- ★ A public/private partnership exists with Spectrum Learning Centers providing computer certification training at no charge to residents of public housing and Section 8 at the Beechwood Center. This computer center is provided by the housing authority and contains 13 computers linked to the Internet.

The Housing Authority of Maysville, in partnership with Maysville Initiatives, Inc. developed 10 units in five duplex homes to serve elderly and working poor individuals. These one bedroom apartments include stove, refrigerator, dish washer, garbage disposal, full size washer, and full size dryer. Built by Maysville Initiatives, Inc., these units are continually occupied with a waiting list. Rent is not subsidized but is affordable (below market rate) and will not increase over the term of the fixed mortgage.

Due to the vacancy percentage in public housing and Section 8 rental assistance we believe that there is no present need for additional safe, sanitary, affordable housing in good repair in Maysville. However, unit turnover of nearly 50% seems to suggest a need for housing were occupants would not be monitored for compliance with lease requirements, local Ordinances, Commonwealth Statutes and/or Federal Regulations. This second type of housing would promote behavior that might not be acceptable to the community and cause an additional burden for law enforcement and other community services.

Housing Goals:

The Housing Authority is considering a long-term goal of making a voluntary conversion of the 14 units on Bank Street to project based vouchers and eventual demolition of these units.

We see the need for some form of after school care on the property that would also help with tutoring and homework preparation. There were no students on the property with a C+ or better grade point average identified by the Mason County Schools for school year 2004.

A bond financed mortgage will be obtained during the next few years to insure completion of projects that will improve building envelopes and modernize apartments lasting many years into the future. Some of these projects will include air-conditioning for the units

Housing Strategies:

Housing goals are achieved through rent from the tenants, subsidy from the Federal government and grant money that can be obtained from competitive funding. The Housing Authority of Maysville continually seeks to solicit money to benefit residents.

Housing goals are also achieved through cooperative partnerships with non-profit organizations and individuals.

The mission of the Housing Authority of Maysville is to provide quality housing to eligible people in a professional, fiscally prudent manner and be a positive force in our community by working with others to assist families with appropriate supportive services.

The Housing Authority of Maysville:

- has continued to practice an aggressive management style by enforcing the lease and the addenda suggested by the Board of Commissioners.

C. Strategy for Addressing Needs

Provide a brief description of the PHA's strategy for addressing the housing needs of families in the jurisdiction and on the waiting list **IN THE UPCOMING YEAR**, and the Agency's reasons for choosing this strategy.

Annual Plan a Needs Assessment of the housing needs of our jurisdiction and our waiting list. Also, we are required to state how we intend to address these needs.

Attached is the information contained in the Housing Needs Section of our Consolidated Plan. It shows there is not a significant need for additional affordable housing resources in our community. Also, per the requirements, we have attached data and tables that provide an analysis of our waiting list.

The information was analyzed in the following manner. Buffalo Trace Area Development District reported jurisdictional needs in terms of Mason County, Kentucky (location of Maysville). The needs of Maysville are not mirrored by the needs of Mason County. Therefore, many of the conclusions drawn do not reflect conditions demonstrated in Maysville. The county may have needs not reflected by conditions in Maysville. The public housing jurisdiction of the Housing Authority of Maysville is confined to the City of Maysville and therefore the needs assessment on a countywide basis does not reflect actual needs within the jurisdiction of the housing authority. Since Buffalo Trace only provided "county wide" information in the preparation of this report, the following factors were used to make our determination for Maysville:

1. The Housing Authority of Maysville currently is at 97% occupancy. However 124 of the 264 units or 47% of the units were turned during the year. A statistical study completed for a master's level course at Northern Kentucky University shows that Welfare Reform and lease enforcement combined to create a mobile poor that rebuffs conformity with federal, state, and local codes of conduct. Therefore, lease enforcement becomes more frequent and causes the turn over rate to remain high.
- 2.
3. The Housing Authority of Maysville unit surrender rate for the Section 8 remains very high.
4. The Vacancy rate in Public Housing and the unit surrender rate in Section 8 as well as the decline of the waiting list can be traced to the implementation of the "One Strike and You're Out" policy and the aggressiveness of the housing authority in pursuing true sources and amounts of income and expenses for applicants and residents. The President of U. S. Bank in Maysville informs us that there are more than 2,000 substandard, non-supervised, and rent neutral (pay what you can) units in Maysville for those who do not desire to live by statute, ordinance, or lease.
5. The Maysville High School project, which was built as low-income housing, has never been fully occupied. Heritage Square and Highland Village apartments have been identified by the City of Maysville Police as new "hot spots." These "hot spots" generally admit those who are evicted from public housing.
6. A Low-Income Public Housing Waiting list of 37. A total of 16 of these applicants are single individuals who are not elderly or disabled. Another portion will not pass the police screening and others will have already found

alternative housing by the time all of the verifications have been received and an offer is made.

7. A briefing clears a Section 8 Waiting list least every three months. The attrition rate for this program is huge. Most of the applicants want the housing authority to do all the work for them in order to secure a unit. They don't want to take any responsibility or initiative at all.
8. The Housing Authority of Maysville currently has several handicapped assessable units with many additional accouterments including lowered counters, both flashing and sound emitting smoke detectors, call system, handicapped bathrooms and ground floor access apartments. There are few handicapped applicants. One unit has been completely remodeled to suit a handicapped individual and a caregiver. Everything in the unit is new.
8. Nearly all of the apartment complexes in Maysville are advertising for occupants due to the closing of Techno Trim, E. A. Robinson, Crystal Tissue, January and Wood, Jockey International, and a host of smaller, labor intensive businesses. Even Maysville's one of the first businesses in Maysville, EPT Power Transmission (formerly Brownings) is going to send computer operations and some manufacturing overseas. Maysville has lost more than 100 4 jobs in the last 18 months.

The Housing Authority of Maysville used this analysis to prepare our five-year goals and objectives. It reflects priorities as set forth in our Mission Statement.

Finally, we are required to state how we intend to address our community's housing needs to the maximum extent practical. While we wish we could meet the needs that exist in our jurisdiction, we are not optimistic about achieving this objective. It is not that the Housing Authority of Maysville is not capable of meeting the needs of our residents. We have residents who have been very satisfied living in public housing for many years. The average residency in housing remains 4.2 years. There are 45.1 % of the residents who have lived with us form more than 21 years. We must be doing something right. However, the new HUD attitude toward residents as evidenced by RIM, SWICA and UIV demonstrates to potential and current residents that they are not welcome. ("We know you lie about your income so we are going to check on you and have HUD check on you so that your lies will be uncovered.")

A major impediment to placing persons and families in Public Housing has been the lack of timely response from the Commonwealth Administrative Office of the Courts. We do not house individuals or families without a local, Commonwealth, and NCIC police check. This process is currently taking two to three weeks during which time most applicants find alternative, non supervised, lesser quality housing.

Another major impediment to placement and retention is that we expect people to live within the terms of the lease. We have been very careful in the selection process and follow our policies to the letter due to the fact that the District Court Judge is more attorney for the defense than Judge of the court. We denied 34 applicants who did not meet the applicable criteria for admittance. It is nearly impossible to evict for any reason other than non-payment. We were successful in only three documented cases. He is more concerned for where a family will live after judgment than the reasons why a family is in the court. Consequently, we only bring criminal cases when there is also a non-payment issue attached to the eviction. It is in the best interest of the public housing community for us to aggressively enforce the occupancy plans. This method circumvents the judge and the court which are decidedly against us.

Therefore, the conclusion that we draw is that families want to have low income housing that does not include a landlord that enforces the lease. They desire to take their drugs, get drunk, practice spousal and

child abuse, and not be bothered with the rules of society, much less those imposed by a Federally sanctioned lease.

One of the things we have learned this year through a program with the Kentucky Housing Corporation is that it is possible to house families who would not ordinarily meet the criteria for admission if they receive close monitoring and support from a dedicated housing manager/case worker. We have had an unprecedented success with these applicants due entirely to the effect of this monitoring individual.

The Housing Authority of Maysville:

- will continue to practice an aggressive management style by enforcing the lease and the addenda.
- will continue to screen residents with police records and do our best to insure that applicants who owe money to other housing authorities will be required to pay their debts before they are admitted to our programs.
- will continue to offer NAHRO Award winning programs such as the ones listed in other sections of this plan to uplift and support residents in their
- will continue NAHRO Award winning youth programs to motivate youth to stay off drugs, out of gangs, and continue their education.
- will continue to market our units through the NAHRO Award winning program of television advertising, newspaper articles about programs, outreach to churches, advertisements in the social services offices, and other outreach to the community.

Critical to this, or any approach to low income public housing, is the continuance of a timely, appropriate, and fully funded subsidy and modernization subsidy from the Federal Government. In recent years payment of the Block Grant money for upkeep and modernization has been neither, adequate, timely, or appropriate to the needs of the properties. It is ludicrous to expect any program to survive if it is mandated to accept the very poorest of the poor on one side and not be able to constantly rehabilitate the units. The overwhelming fact is that modernization money is used many times, not to improve the curb appeal or amenities of the units, but to stay even with the trashed out units that are left when a resident vacates without notice. We are tasked to supply a plan based on air. The numbers come "after the fact." After the numbers come we are informed that we are funded at a percent less than full eligibility.

Priorities and guidelines for programs often change from year to year and our decisions to pursue certain opportunities and resources may also change over the coming year if there are program changes or lack of funding beyond our control as there has been in the past.

During each Housing Choice Voucher briefing each applicant is informed that his or her voucher will expire 60 days from the date it was issued. Each applicant is also advised that if they are unable to secure a unit within the 60 day timeframe that extensions may be granted at the discretion of the housing authority. To obtain an extension the client must provide a written request prior to the expiration date and a statement of the efforts the family has made to find a unit. However, the extension, if granted will not exceed 120 calendar days from the initial date of issuance without an extraordinary reason.

For the last 8 years we have had only two clients request an extension of their Certificate or Housing Choice Voucher. We still have the option of extending the date available. Many clients have either secured a home within the designated 60 days or have chosen not to pursue Section 8 rental assistance due to HQS regulations and program rules.

If a person on both the Section 8 and Public Housing waiting lists is housed by either program their name is removed from the waiting list of both programs to allow greater access for those with no housing as opposed to transfer housing.

B. Reserved for Conversions pursuant to Section 22 of the U.S. Housing Act of 1937

Component 10 (B) Voluntary Conversion Initial Assessments

- a) How many of the PHA's developments are subject to the Required Initial Assessments?
4
- b) How many of the PHA's developments are not subject to the Required Initial Assessments based on exemptions (e.g., elderly and/or disabled developments not general occupancy projects)? *There are no developments that are 100% elderly – sections of developments have been designated elderly/disabled.*
- c) How many Assessments were conducted for the PHA's covered developments?
One assessment was conducted on each property.

Identify PHA developments that may be appropriate for conversion based on the Required Initial Assessments: *No developments are appropriate for conversion based on the required initial assessment. August 2001: The Housing Authority of Maysville has reviewed all the criteria for each development's operation as a public housing entity in considering the implications of converting the public housing to tenant-based assistance.*

The conclusions is that it would be inappropriate, because removal of any of the four, or all developments, would not meet the necessary conditions for voluntary conversion. Participants of public housing in the low and very low-income bracket will no longer be able to have affordable housing. Many section 8 homes have very poor insulation and just basic heating plants. These heating plants must be run fairly hard in harsh weather. Utility bills may not be met and if not met the family will no longer have decent, safe and sanitary housing.

Current Section 8 landlords are leaving the program due to increased regulation (lead base paint and other regulation). Their comments are: "I don't need this. I can get what I need without being on your program and I don't have to deal with all the regulatory crap!"

If we don't care for our public housing and the families that are served, we will create a whole new category of homeless "Regulatory Displaced." Our public housing is the last bastion of quality housing remaining for our demographic segment.

Many residents prefer the section 8 program as absentee landlords do not monitor their drug usage, domestic violence, use of the property, and other conditions that are watched and acted upon in public housing.

- a) If the PHA has not completed the Required Initial Assessments, describe the status of these assessments. *The PHA has completed all required assessments as confirmed by the former Maintenance/ Modernization Director.*

C. Reserved for Conversions pursuant to Section 33 of the U.S. Housing Act of 1937

[24 CFR Part 903.7 9 (I)]

Exemptions from Component 12: High performing and small PHAs are not required to complete this component. Section 8-Only PHAs are not required to complete sub-component C.

The Buffalo Trace Area Development District publishes a document each year listing all of the service agencies in the area, including name, contact name, address, telephone number, and type of service provided.

The Housing Authority of Maysville computer system has been programmed to identify those persons who need to participate in the Community Service Requirement program.

A designated employee sends the person a letter stating that this requirement must be met and that the list of agencies is available at the Buffalo Trace Area Development District office, the Mason County Public Library and the Housing Authority Administrative Office.

It is up to the participant to identify and contact the agency with which the participant desires to volunteer. When the Community Service Requirement is satisfied the agency will send or FAX a statement to that effect to the Housing Authority on agency letterhead. No other form of documentation will be accepted.

If the service requirement is not met within 90 days of the end of the required lease term of 12 months, a letter will be sent to the person advising them to fulfill the requirement or face non-renewal of the lease.

Since the option for a cure is by definition, optional. The housing authority will **NOT** exercise this option. Failure to meet the service requirement will serve as reason for non-renewal of the lease. However, removal from the property (unit) must be accomplished in court. If the District Court Judge will not enforce this portion of the law the housing authority will not defy the court.

The Housing Authority will not act as a placement agency or an advocate for any person and will not place volunteers within the agency due to other requirements of the regulation and liability issues.

A. PHA Coordination with the Welfare (TANF) Agency

1. Cooperative agreements:

If no, list steps the PHA will take below:

Master of Computer Basics

Housing Authority of Maysville Ky.

1. Summary of program:

For many years, we have tried to convince the Maysville Community College that a basic computer class would be successful with the correct format and teacher. While in basic agreement, their system was too inflexible to actually perform the service. We took over the process, hired the right person, added the keyboarding and operating system component, and produced a highly successful program that is both specific in content and flexible in presentation. At the end, participants receive a Masters of Computer Basics certificate.

2. Problem/Need for the Program:

The Housing Authority of Maysville has been working with the Maysville Community College for years to establish courses on the property that meet the changing needs of residents. The College has been satisfied with offering the same tired courses in the same tired manner with decreasing attendance and enthusiasm from participants. The College paradigm was a semester course in Microsoft Office products taught by a teacher who was not really interested in being there and talked down to the students who were participating. No thought was given to who the students were and what their needs might be. "This is the syllabus and whether your needs are met or not, this is what you will do." Well, that may have worked in the '60s, but it does not work today.

Returning students today demand that they be taught the skills they need to master the subject on a flexible schedule, by a person who is grounded in reality and will work with them as individuals who are making the attempt to have a better life.

When we encountered negative teaching, complaints about a newly renovated computer laboratory, and a continually diminishing class size we decided that the time had come to change our paradigm to one that was directly participant - oriented and recognized that the participant, - not the teacher or the school - , is the most important variable in the construct.

3. Description of the design:

Due to lack of new funding, we had to decide how we were going to use the equipment and software currently available. We surveyed our assets:

- 18 station computer laboratory with internet connection
- Microsoft XP operating system on each station
- In Focus projector attached to teacher machine
- Licenses for Microsoft Office 2000 on each machine

We determined that all of the physical essentials were in place. Turning attention to what was to be taught, we discovered that many of the residents could not participate in the College classes for numerous reasons:

- Fear of the computer
- Inability to type (keyboard)
- Not understanding what a software program actually does
- Time of class offering (time of day)
- Length of the class (semester driven)
- Attitude of the teacher.

These were all issues we felt could be successfully addressed by our new paradigm.

C. Welfare Benefit Reductions

1. The PHA is complying with the statutory requirements of section 12(d) of the U.S. Housing Act of 1937 (relating to the treatment of income changes resulting from welfare program requirements) by: (select all that apply)

- ☒ Informing residents of new policy on admission and reexamination
- ☐ Actively notifying residents of new policy at times in addition to admission and reexamination.

- ☒ Establishing or pursuing a cooperative agreement with all appropriate TANF agencies regarding the exchange of information and coordination of services
- ☐ Establishing a protocol for exchange of information with all appropriate TANF agencies
- ☐ Other: (list below)

D. Reserved for Community Service Requirement pursuant to section 12(c) of the U.S. Housing Act of 1937

13. PHA Safety and Crime Prevention Measures

[24 CFR Part 903.7 9 (m)]

Exemptions from Component 13: High performing and small PHAs not participating in PHDEP and Section 8 Only PHAs may skip to component 15. High Performing and small PHAs that are participating in PHDEP and are submitting a PHDEP Plan with this PHA Plan may skip to sub-component D.

A. Need for measures to ensure the safety of public housing residents

1. Describe the need for measures to ensure the safety of public housing residents

(select all that apply)

- ☐ High incidence of violent and/or drug-related crime in some or all of the PHA's developments
- ☐ High incidence of violent and/or drug-related crime in the areas surrounding or adjacent to the PHA's developments
- ☐ Residents fearful for their safety and/or the safety of their children
- ☐ Observed lower-level crime, vandalism and/or graffiti
- ☐ People on waiting list unwilling to move into one or more developments due to perceived and/or actual levels of violent and/or drug-related crime
- ☒ Other Due to lack of PHDEP money for Police Protection we are losing control of the peaceful enjoyment of the property. We are now having regular arrests for criminal activity including drugs, domestic violence, and disputes between neighbors. The police department takes their time in "making their case" which allows activity to continue where eviction might be appropriate. We can not evict without police documentation. The police are no longer agents of the housing authority because we do not pay them. Revoking this money was one of the most ill-considered acts ever done.

2. What information or data did the PHA used to determine the need for PHA actions to improve safety of residents (select all that apply).

- ☐ Safety and security survey of residents
- ☐ Analysis of crime statistics over time for crimes committed "in and around" public housing authority

- ☐ Analysis of cost trends over time for repair of vandalism and removal of graffiti
- ☒ Resident reports (unwillingness to give names or testify)
- ☐ PHA employee reports
- ☒ Police reports when available
- ☐ Demonstrable, quantifiable success with previous or ongoing anticrime/anti drug programs

B. Crime and Drug Prevention activities the PHA has undertaken or plans to undertake in the next PHA fiscal year

- ☒ Crime Prevention Through Environmental Design
- ☐ Activities targeted to at-risk youth, adults, or seniors
- ☐ Volunteer Resident Patrol/Block Watchers Program
- ☐ Other Adult Education Activities

2. Which developments are most affected? All

C. Coordination between PHA and the police

1. Describe the coordination between the PHA and the appropriate police precincts for carrying out crime prevention measures and activities: (select all that apply)

- ☐ Police involvement in development, implementation, and/or ongoing evaluation of drug-elimination plan
- ☐ Police provide crime data to housing authority staff for analysis and action
- ☐ Police have established a physical presence on housing authority property (e.g., community policing office, officer in residence)
- ☐ Police regularly testify in and otherwise support eviction cases
- ☐ Police regularly meet with the PHA management and residents
- ☐ Agreement between PHA and local law enforcement agency for provision of above-baseline law enforcement services
- ☒ Other activities: Since policing is no longer funded through PHDEP, they come when they are called, providing the caller is taken seriously or the crime is serious. Many times a police report is NOT taken so housing authority administration follow-up is not an option. There are still only three (3) officers per shift. They say, call the

housing office. I love this job but it is not worth dieing for, especiall as much as the housing administration here is appreciated by HUD!
